

## Rigid Arm Pneumatic Manipulator with Suction Cup Gripping System

**ATIS**  
MANIPOLATORI PNEUMATICI

The ATISmirus 300 manipulator is the ideal solution for optimizing the handling of your windows and glass panels. Designed for efficiency, safety, and precision, this system automates the work cycle, from picking the product at the end of the line to releasing it onto a dedicated stand, significantly improving productivity and reducing downtime.

- **Withdrawal:** From the line to the release on the stand.
- **Grip System:** Suction cups
- **Structure:** Rigid arm made of high-strength steel to ensure stability and high load capacity.

### Frequently Asked Questions:

- **Is the pneumatic manipulator suitable for my products?**  
Yes, our pneumatic gripping manipulators are custom-designed based on the size, material, and weight of the load. They are ideal for handling windows and doors in any industry.
- **Is there a risk that the manipulator will release the product into the air?**  
Absolutely not, the manipulator is equipped with all the necessary safety devices to prevent the product from being released into the air.

### Typical Applications:

- Safe handling of windows and glass panes
- End of line – packaging
- Assembly line

The customized configuration of the ATISmirus 300 manipulator with suction cup gripping system was specifically designed to meet the handling needs of windows and glass panels. The flexibility of the suction cups, combined with the manipulator's capacity, allows for safe and efficient handling of the process.

**Invest in the safety and efficiency of your operators. Our manipulator is the ideal solution for safe and precise handling. Contact us to find out how we can customize it to your specific needs.**
